DYSPLA

DYSPLA CV

DYSPLA is an award winning arts organisation producing and developing the work of dyslexic + neurodivergent storymakers. We work in film, immersive theatre, installation & digital art. Incorporated in 2013 to shed light on Dyslexic Narrative and the Dyslexic Aesthetic DYSPLA is at the forefront of research into neurodivergent creativity.

The UK's education system has belittled and undervalued the neurodivergent community for centuries and we have lost many great minds over the years. DYSPLA dreams of a world where each and every mind is valued and can flourish within a empathetic and supportive environment, building the essential next generation of innovative thinkers.

Based in London, we have presented and developed our work throughout the world, including South Korea, Canada, USA, New Zealand, Cyprus, Italy and Malta. We have conducted monthly workshops since 2010, supporting the dyslexic and neurodivergent creative community and have supported over 200 writers to date, across all age ranges. Democratising a usually unaffordable resource, DYSPLA is a priceless asset to the UK's creative industries.

DYSPLA is receiving continued project lead funding from the Arts Council England, The Promotion of English Trust and various private funders but desperately needs core funding to continue is valuable work within the UK's creative industries. DYSPLA believes that dyslexics and the neurodivergent make better storymakers and the world needs them desperately.
